

The aims of the Hubbard Dianetic Research Foundation are rooted in a new science of the mind, Dianetics. As described in the book *Dianetics*, the sole source of human aberration has been discovered, and techniques evolved for its invariable relief. Such a discovery will quickly affect every individual and every activity of human beings in all parts of the world. The aims of the Foundation, therefore, are:

1. To maintain the integrity of Dianetics.
2. To resolve concerns of the individual.
3. To stabilize and advance our society.
4. To stabilize the concerns of nations, and render a recourse to war unnecessary.

The speed with which Dianetics must accomplish its research program and expand on a worldwide scale, in order to achieve these purposes in time to prevent catastrophe, can easily be seen.
