

A HISTORY OF MAN

by

L. Ron Hubbard

Published July 1952

A History of Man, originally titled *What to Audit*, is dedicated to Mary Sue Hubbard who helped Ron do the research at Wichita in late 1951, and at Phoenix in 1952. It was, at the time, the most complete existing account of the whole track, covering the present life, the genetic line, the theta body line, and large specialized sections of the whole track. Electropsychometric Auditing (see page 221) and Individual Track Map (see page 232) were companion pieces to this book and were meant to be used in conjunction with it.

A History of Man is the culmination of the Technique 80 and Technique 88 lectures given by L. Ron Hubbard in early Summer 1952.

Technique 88 is the process of locating the thetan, the "1" of the individual, and the auditing of the thetan. Technique 88 depends upon a knowledge of Technique 80 which is a mechanical process applicable to any thought or thought mechanism.

A later edition made a few revisions and added in references to Scientology 8-8008, and in some cases substituted "8-8008" for "Technique 88."
